

Buy Renewable Electricity

Up to 7% cheaper than PECO – It's EASY!!

Current PECO customers ... switch to a renewable energy supplier and get a 1 year fixed rate contract at 7% below the PECO "Price to Compare"! [Find other renewable options at www.papowerswitch.com]

Simplest Approach: We have simplified this by doing the research for you. Currently, Green Mountain Energy will provide a 1 year fixed contract for 100% renewable power at 7% below the PECO price to compare for your area. Simply take the following steps:

1. Have your PECO bill or account number handy (available at www.peco.com).
2. Call PECO Smart Energy (1-888-899-8612 8 am-10 pm Mon to Fri or Saturday 9 am-6 pm).
3. Provide account number, address and name and ask if they can switch you to Green Mountain Energy through the PECO Smart Energy Choices "Standard Offer" program.
4. They should offer you a 1 year contract at 7% below the PECO "Price to Compare".
5. Accept the offer and provide the requisite information.
6. Mark your calendar for the end of the 1 year term to be sure you receive their offer for future periods and carefully review the terms.

NOTE: At the time this was written, the offer was \$0.06602/kWh (7% below PECO's \$0.07099/kWh "Price to Compare").

Accepting a "Standard Offer" contract will ensure ample warning before the expiration of the contract and a clear follow up offer for the next proposed contract term.

Other providers may also offer 100% renewable power under this program, but it may take some work to determine which, if any will do so.

Other Providers and If Above is No Longer Offered: If you want to find another provider who will honor this program with 100% renewable power or you find this information is out of date, you will need to do some more research. **Call** PECO Smart Energy Choice at **1-888-899-8612** (from 8am-10pm Mon-Fri) and **provide your address**. They will provide you with a list of participating suppliers, most of which do not provide 100% renewable power under this offer. **Look for their offers** at www.papowerswitch.com by clicking **Shop for Electricity / Rates /**

Shop for Your Home. Fill in your **Zip Code** and press **Enter**. Then click **R-Regular Residential Service**. Scroll down to find the name of the company and on the right, click **"View All Offers"**. This will take you to the company web page and may include renewable energy offers. If so, we advise you call them and ask if they will honor the "Standard Offer" contract for 100% renewable.

Disclaimer: This information provided as a public service of the Haverford Township Environmental Advisory Committee to demonstrate that green power can save you money – your priorities may vary. All power provider offers are subject to change and the above options may not be available after April 2018 when this was prepared. Companies are neither endorsed nor recommended. Recheck rates at the expiration of your term, companies don't always notify you of price changes after the end of the contract period.

Other options include installing solar power/heat on your home, an approach that may work for you.
