

Shade Tree Meeting Minutes

Monday, February 25, 2019

In Attendance: Joe Rastatter, Joe Celia, Paul Davit, Mark Pennington, David Schneck

Absent: Doreen Saar, Jonathan Alderson

Next Meeting – March 25, 2019

Shade Tree Board Elections and Personnel Changes

- Mark Pennington will serve as Committee Chair for 2019
- Paul Davit will serve as Vice Chair for 2019
- Joe Rastatter will serve as Co-Secretary
- Doreen Saar will serve as Co-Secretary
- Kathy Grentzenberg has left the Committee
- Jonathan Alderson has joined the Committee
- Paul Davit will complete the Annual Report

1200 Ellston Road - (Presented by Ed Gallagher / Ormond Properties)

Plans were approved with the following changes:

- The October Glory near the front steps of the existing building should be replaced with a Swamp White Oak.
- The Swamp White Oak near the driveway of the new property will be replaced by an October Glory.

1417 Fairview - (Presented by Ed Gallagher / Ormond Properties)

Plans were approved with the following changes:

- Replace the October Glory in front of Home #1 with a Swamp White Oak and change the planting location. New planting location should be set back away from the large 50 inch tree.
- For Home # 2 replace the October Glory with a Red Oak.

924 E. Haverford Road (Pets First Vet Center) – (Presented by Dan Meier / Site Engineering Concepts)

Plans were approved with the following changes:

- Replace the 5 Hackberry Trees along Haverford Road with 3 Honey Locust and 2 Seedless Sweet Gum.
- Replace the 8 Honey Locust that rim the parking lot with 4 Hackberry and 4 Zelkova.

217 Walnut Hill - Preliminary Review of this site because they arrived too late.

The Committee made the following recommendations to the developer:

- Resubmit these plans with 2 sets of drawings. First set should show the existing site with clear indication of trees that plan to be removed. The second set should show the proposed plantings with a clear indication of where each new tree will go.
- The Committee applauded the tree inventory provided, but feels the developer is confused about what is a tree protection zone (and what isn't).
- The tree inventory noted several trees as being a hazard. The Committee would like to see a note from an arborist indicating this.
